In Eastern traditions, especially Buddhism, the feminine essence lives at the heart of everything. Subtle, mystifying, intriguing, nurturing and pervasive, She is dynamic and actually beyond gender. This modern world is fast-paced, materialistic and competitive which causes fixation, stress and exhaustion. Feminine aspects such as flexibility, flow and spontaneity need to be reactivated by both men and women so we may learn to live within this ever-flowing wisdom. Khandro Rinpoche will also share about the role of women and the renowned female Masters of Himalayan Buddhism. Book a space or surprise us with your presence.

Waiata Telfer is an awarded Indigenous Australian artist and cultural educator of Kurna-Narranga (SA) descent.
